# P-Met High Tech Company Private Limited

<https://www.pmethightech.com/>

Manufacturing and Exporting of **Dye Penetrant Testing Chemicals, Non Destructive Testing Chemicals, Disinfectant Spray** etc. These are used in nuclear & atomic energy, petrochemicals, oil refineries, and automobiles.

## About Us

Incepted in the year **1976**, **P-Met High Tech Company Private Limited** is one of the leading Manufacturer and Exporter of **Dye Penetrant Testing Chemicals, Non Destructive Testing Chemicals, Disinfectant Spray etc.**

Offered and marketed under the brand name of "PMC," Liquid Penetrant Products are successfully used in nuclear & atomic energy, petrochemicals, oil refineries, chemical and fertilizer units, and automobiles. We have also got product approvals from some of the prestigious Organizations such as Nuclear Power Corporation of India, Indira Gandhi Centre for Atomic Research, Director General of Civil Aviation and Directorate General of Aeronautical Quality Assurance, Research Designs & Standards organization (Railways).

We are continuously progressing under the able guidance of our founder and Mentor **Mr. Devendra Mehta**. Capitalizing on his experience and expertise in this industry, we have been able to carve a niche for ourselves in this domain. Our effective marketing strategy and client centric approach also assist us in catering to the needs of a wide clientele.
